PROFILE SUMMARY

Dynamic software developer with a proven record of creating responsive web and mobile applications. Proficient in various languages and frameworks, dedicated to delivering user-friendly and visually captivating digital solutions.

EXPERIENCE

Front-End Developer   **January 2023 - Present**
EnvisoLive - Accra, Ghana

- Developed web and frontend applications for diverse clients, collaborating within a team of three developers.
- Spearheaded the frontend overhaul of Fichi, a real-time application utilized by startups in the airline industry for booking involving fauna, introducing a new design pattern for enhanced efficiency.
- Led the migration of Tierpass; a live animal identity suite used by airline industry startups, from native builds to React Native, facilitating cross-platform accessibility.
- Proficiently utilized React, React Native, Next.js, Tailwind CSS, Typescript, Postgresql, Prisma, Docker, and other modern application stacks.

Front-End Developer   **September 2019 - December 2022**
Smatpet Logistics - Tver, Russia

- Contributed to the design and development of a robust freight forwarding application for live animal logistics, ensuring a high-quality user experience for enterprise users.
- Designed and implemented an analytics dashboard to visualize key user behavior metrics, guiding iterative improvements for an enhanced user experience.
- Utilized HTML, CSS, JavaScript, Ajax, jQuery, and React in project development.

Quality Assurance Specialist   **September 2018 - September 2019.**
Blue Skies - Nsawam, Ghana

- Implemented an in-process quality control system, improving product accuracy from 85% to 97%.
- Developed and executed comprehensive test plans, including functional, regression, and performance testing, to identify and rectify defects, enhancing product reliability.
- Streamlined testing processes through automation tools, reducing human error, and accelerating testing cycles, resulting in cost and time efficiencies.
- Documented, executed, and tracked test cases to meet company-wide audit requirements.

EDUCATION

Bachelors Degree   2018
Agricultural Biotechnology
Kwame Nkrumah University of Science and Technology

SKILLS

Python, C++, C, Typescript, JavaScript, HTML, CSS, Node.js, Next.js, Prisma, React, React Native, PostgreSQL, Jest, Git, Linux, Graphql
